Dividing Decimals with Models

Name: \_\_\_\_\_ Date: \_\_\_\_\_

Draw a model to solve each expression.

**Example**  $0.8 \div 4 = 0.2$

1.  $0.6 \div 2 = \underline{\quad}$

2.  $1.5 \div 3 = \underline{\quad}$

3.  $1.20 \div 4 = \underline{\quad}$

### Decimals - Multiplication

Directions: Complete the following problems and show your work.

1. $\begin{array}{r} 164.00 \\ \times 4.73 \\ \hline \end{array}$	2. $\begin{array}{r} 655.00 \\ \times 1.53 \\ \hline \end{array}$	3. $\begin{array}{r} 360.00 \\ \times 1.55 \\ \hline \end{array}$
4. $\begin{array}{r} 62.20 \\ \times 55.10 \\ \hline \end{array}$	5. $\begin{array}{r} 9.37 \\ \times 318.00 \\ \hline \end{array}$	6. $\begin{array}{r} 239.00 \\ \times 9.91 \\ \hline \end{array}$
7. $\begin{array}{r} 7.28 \\ \times 157.00 \\ \hline \end{array}$	8. $\begin{array}{r} 73.40 \\ \times 80.80 \\ \hline \end{array}$	9. $\begin{array}{r} 173.00 \\ \times 6.45 \\ \hline \end{array}$
10. $\begin{array}{r} 138.00 \\ \times 8.13 \\ \hline \end{array}$	11. $\begin{array}{r} 410.00 \\ \times 4.16 \\ \hline \end{array}$	12. $\begin{array}{r} 78.40 \\ \times 53.30 \\ \hline \end{array}$

Super Teacher Worksheets - <http://www.superteacherworksheets.com>

Decimal long division worksheets Divide whole numbers, give answer to 3 decimal digits Divide a whole number or a decimal by a whole number, round the answers to three decimals (need to add zeros to the dividend) Divide a decimal by a whole number, round the answers to three decimals (need to add zeros to the dividend) Convert a fraction to a decimal using long division, rounding the answers to three decimals Divide a whole number or a decimal by a decimal using long division Divide decimals by decimals 1: Dividend less than 10; divisor 1-2 digits Divide decimals by decimals 2: Dividend varies more; divisor 1-2 digits Divide decimals by decimals 3: the divisor has 1-3 decimal digits Divide decimals by decimals, generic See also Dividing Decimals By Decimals — a free lesson Multiply Decimals By Decimals — a free lesson Dividing Decimals Using Mental Math — a free lesson Decimals worksheet generator — generate worksheets for any of the four operations with decimals, in horizontal or vertical formats. This is a workbook series by Key Curriculum Press that begins with basic concepts and operations on decimals. Then the books cover real-world uses of decimals in pricing, sports, metrics, calculators, and science. The set includes books 1-4. => Learn more Copyright © 2021 K5 Learning Our grade 5 decimal division worksheets start with simple "mental math" questions emphasizing the understanding of decimal place value and finish with more challenging decimal long division exercises. Find all of our decimals worksheets, from converting fractions to decimals to long division of multi-digit decimal numbers. Register and get access to: All Answer Keys An Ad-free Experience Premium/Full Screen PDFs Unlimited Access Find here whole lot easier decimal division strategies with our outstanding dividing decimals worksheets for grade 5 pdf. As we basically know, decimals reveal to us precision and accuracy of quantities and amounts of things. It is for this reason that we have created thrilling Fifth Grade decimals division question with answers for your kids practice. The following worksheets involve solving decimal division word problems with solutions and exercises that will allow kids to make precise calculations easily and accurately. In an effort to reinforce kid's dividing decimal's skills, we have formulated very simple strategies of solving all basic dividing decimals operations perfectly. These exercises include divide by powers of ten, division with decimal quotients and rounding, divide by decimals etc. Engage your kids in these our genuine dividing decimals worksheets for grade 5 pdf, for them to obtain simple strategies to do quick dividing decimal calculations. To begin with, it should be recalled that a key to understanding math concepts is flexibility with numbers. As a result, your kids will have the opportunity to fluently practice decimal division using our fun mental math strategies of decimal division patterns over increasing place values. This activity is equally a fun and clever way to reinforce the place value skills in kids. Also, dividing decimals by powers of ten is a great way to build much excitement and understanding of dividing decimals in kids. However, when dividing decimals by powers of ten, we simply move the decimal point of the number to the left, depending on the number of zeroes found in the base ten number. For instance  $172.6 \div 100$  since there are two zeroes in 100, we'll move the decimal point two places to the left. So,  $172.6 \div 100 = 1.726$  Welcome to our Decimal Division Worksheets. Here you will find our selection of division fact worksheets with decimals to 1dp. The decimal problems on these pages are linked to the multiplication table and involve using related facts to work out division problems. Here you will find a selection of Division sheets designed to help your child learn to use their Division facts up to 10x10 to answer related questions involving decimals to 1dp. For example, if you know that  $42 \div 6 = 7$ , then you should be able to use the fact to answer questions like  $4.2 \div 6 = 0.7$  or  $42 \div 0.6 = 70$ . The sheets are graded so that the related division facts start off easier, then get gradually harder. The first sheet provides support to help kids grasp this concept. Using these decimal division worksheets will help your child to: understand how division and multiplication are related; apply their division facts up to 10x10 to answer related questions involving decimals to 1dp. These sheets are aimed at students working at 5th and 6th grade. The first two sheets involve using both multiplication and division facts to complete the missing equations. They help to show the link between multiplication and division, and also that a fact sentence can be written in lots of different ways. We also have some 4th Grade Division related facts worksheets. This page focuses on working out division facts related to the multiplication table. We also have long division worksheets both with and without remainders. Take a look at some more of our worksheets similar to these. Here you will find a range of Free Printable 5th Grade Division Worksheets. The following worksheets involve using the 5th Grade Math skills of dividing, and solving division problems. Using these sheets will help your child learn to: divide any whole number up to 10000 by a two digit number; express any division with a remainder in the form of a mixed number (a number with a fraction part). Here you will find a range of free printable 5th Grade Fraction Worksheets. At 5th Grade level, children are introduced to adding and subtracting fractions with different denominators. They know and can use equivalent fractions, and can multiply a fraction by whole numbers, as well as adding mixed numbers. Using these sheets will help your child to: add and subtract fractions and mixed numbers; understand how to multiply fractions by a whole number; understand how to multiply two fractions together, including mixed fractions; understand the relationship between fractions and division; know how to divide fractions and mixed fractions; convert decimals to fractions. All the Math Worksheets in this section are informed by the Elementary Math Benchmarks for 5th Grade. Here you will find a range of Free Printable Division Games to help kids learn their division facts. Using these games will help your child to learn their division facts, and also to develop their memory and strategic thinking skills. How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems, sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills.
